

## Tiny Book About Living Together (v1.2)

### 1. Everyone matters.

People, animals, plants, bugs, rivers, and air all share one home.

### 2. Small creatures matter.

Bees help plants grow. Worms help soil breathe. Bugs clean up what's old.

### 3. Big feelings are okay.

Feelings tell us something. Choices decide what happens next.

### 4. Strong is gentle.

If you are stronger, be kinder.

### 5. Peace is care.

Peace is something we practice, not something we win.

### 6. Mistakes are for learning.

Say sorry. Fix what you can. Keep going.

### 7. Time is special.

Be good while you're here.

### 8. Remember the others.

Take care of animals, forests, oceans, bugs, and future children.

When you don't know what to do:

Don't make it worse. Don't hurt on purpose. Don't make it permanent. Ask for help.
